### TRACK 1—VANGUARD TARGET RETIREMENT FUNDS:
These funds are professionally managed mutual funds that provide automatic asset allocation based on a target retirement date. In general, each fund is designed for investors who have a specific target retirement year in mind and each fund’s investments are adjusted from more aggressive to more conservative as a target retirement year approaches. As with all mutual funds, the principal value of a target retirement fund isn’t guaranteed. Also, please note that the target date of each fund is an approximate date when investors may plan to begin withdrawing from the fund. There are currently 12 Vanguard Target Retirement Funds that comprise Track 1.

### TRACK 2—TIAA-CREF ACCOUNTS:
Track 2 provides access to TIAA-CREF products with a range of asset classes and lifetime income options.

### TRACK 3—VANGUARD INDEX FUNDS:
Track 3 affords participants the opportunity to invest in a selection of passively managed funds that track segments of the overall market and achieve asset diversification with lower expenses compared to actively managed funds. Vanguard has a reputation for being “the low cost provider” in the industry and a hallmark of Vanguard’s philosophy is the belief that minimizing cost is vital for long-term investment success. Track 3 includes six Vanguard index funds representing six separate broad asset classes: Fixed Income, Total US Stock Market, US Large Cap Blend, US Mid Cap Blend, US Small Cap Blend and International.

### TRACK 4—TIAA-CREF SELF-DIRECTED BROKERAGE ACCOUNT:
The TIAA-CREF Self-Directed Brokerage Account is available to participants who are interested in having access to broader investment markets than is available in Tracks 1, 2 and 3. For an account fee of $40 per year, participants can select from thousands of mutual funds, including funds with or without transaction fees. Fee-based mutual funds can be accessed at $35.00 per trade; however, this can be limited to a one-time charge when using the Automatic Investment Plan (AIP). Minimum initial investment is $5,000; minimum subsequent investments are $1,000. Participants who choose to invest in Track 4 will need to enroll online and acknowledge that they are investing at their own risk with full understanding that funds offered under Track 4 are not monitored by The Claremont Colleges. This track is intended for sophisticated investors who will be able to navigate the broader universe of mutual funds. Only mutual fund investments and exchange traded funds (ETFs) are permitted under the Self-Directed Brokerage Account. For more information on the Self-Directed Brokerage Account, call 800-927-3059 to speak to a TIAA-CREF individual consultant who specializes in brokerage services.

Tracks 1 through 3 are considered “core” investment options and as such, these options are selected and monitored with the assistance of an outside investment advisor. Track 4 allows access to thousands of mutual funds outside of the core through a self-directed brokerage account.
